Career Objective

Computer Science undergraduate proficient in **Machine Learning, Python, C++ and Data Structures**, with hands-on experience in building real-world software projects. Passionate about problem-solving, continuous learning, and developing innovative AI-driven solutions.

Education

Bachelor of Technology in Computer Science and Engineering **2023–Present**
Jaipur Engineering College and Research Center Foundation, Jaipur *CGPA: 7.54*

Senior Secondary, CBSE **2023**
Chinar Public School, Alwar *Percentage: 65.4%*

Secondary, CBSE **2020**
Chinar Public School, Alwar *Percentage: 77%*

Skills

Programming & Scripting: C, C++, Python, Pandas, NumPy, Matplotlib
Machine Learning: Supervised Learning, Unsupervised Learning
Computer Science Fundamentals: Object-Oriented Programming, Operating Systems
Web Technologies: HTML, CSS, JavaScript
Tools & Platforms: VS Code, Git, GitHub, Google Colab

Projects

AI Resume Analyzer — NLP-based ATS Scoring & Semantic Matching [Link] **Aug 2026**

- Built a full-stack **AI-powered Resume Analyzer** using **Python, Streamlit, Sentence Transformers, and Scikit-learn** to evaluate resumes against job descriptions.
- Implemented **semantic resume-job matching** using the pre-trained **all-MiniLM-L6-v2** transformer model with **Cosine Similarity**, enabling context-aware matching beyond keyword search.
- Designed an **ATS scoring pipeline** featuring PDF parsing, text preprocessing, skill extraction, matched/missing skill analysis, and deployed the application on **Streamlit Cloud**.

Housing Price Prediction — Machine Learning Project [Link] **Mar 2026**

- Developed an end-to-end housing price prediction application using **Python, Scikit-learn, Pandas, NumPy, & Matplotlib**.
- Performed comprehensive **data preprocessing**, including handling missing values, removing duplicate records, encoding categorical features, and feature scaling.
- Conducted Exploratory Data Analysis (EDA) using Pandas and Matplotlib to identify feature correlations, outliers, and price distribution trends.

Co-Curricular Activities

- Led college and school football teams as **Captain in inter-college tournaments**, demonstrating **leadership, teamwork, and strategic decision-making**.
- Represented at **state-level competitions** in **Football and Swimming**.
- Planned and coordinated large-scale college fest events as a **Core Member** by collaborating with cross-functional teams to ensure successful execution.
- Member of the **Student Council**; involved in student representation and campus initiatives.

Certifications & Achievements

- Completed an **8-Week Web Development Training** with AI Training by **Internshala** (August 2024).
- Completed the **Learning C++** course from **LinkedIn Learning** (April 2024).
- Participated in the **Smart India Hackathon (SIH) 2024** Internal Hackathon (JECRC HackQuest 7.0).
- Earned the **Copado Certified Copado AI** certification from **Copado** (July 2026).
- Secured **2nd Position** in **Foothball** at the **RTU Inter-College Tournament**, organized by Poornima Institute of Engineering & Technology (November 2023).
- **Certificate portfolio - Google Drive Link**
