Summary

AI/NLP Intern at Ericsson building and monitoring LLM-powered multi-agent services, including **LangGraph, A2A and MCP**, with built-in **PII masking and guardrails**. Created a local **RAG** system; its **hybrid retrieval** increased Hit Rate@8 from **66.7% to 83.3%**. Strong foundation in **OOP and C++**.

Experience

AI/NLP Intern **Sep 2026 – Present**
Ericsson *Bengaluru, India*

- Built and shipped an **LLM API end-to-end** for a multi-agent (**LangGraph, A2A**) compliance-reporting system, adding per-user request attribution via an SSO-sourced `x-api-consumer` header for auditing and traceability; covered by 6 unit tests.
- Building automated **health, liveness and guardrail checks** that keep AI agents dependable: agent liveness probes, round-trip response verification and **Model Context Protocol (MCP)** server health checks.
- Worked on a pipeline that generates report sections in **parallel** using the LangGraph Send API and **masks PII before every LLM call**.
- Ran **UAT** for an LLM research assistant, documenting **ten test cases** (financial comparison, SWOT, citations, tables, upload handling including **no hallucination** on inaccessible files) and flagged three issues: latency, citation formatting and unrendered links.

Projects

Measured RAG Studio | Local RAG with Retrieval Benchmarking **GitHub** **Oct 2026**

- Built a local **RAG** system over SEBI regulatory documents using **LangChain, FAISS, BM25** and `bge-small-en-v1.5` embeddings, answering with a local **Ollama** (Llama 3.2) model via a Streamlit UI.
- Benchmarked dense versus **hybrid (RRF)** retrieval and two chunk sizes on **thirty ground-truth questions**: hybrid lifted Hit Rate@8 from **66.7% to 83.3%** (MRR 0.42 to 0.61); 500-character chunks beat 1000-character chunks by 13 points.

AI Resume Analyzer | NLP-based ATS Scoring **GitHub** **Aug 2026**

- Built and deployed a **Streamlit** app that scores a resume against a job description and flags missing skills.
- Matches on meaning rather than keywords: embeds text with `all-MiniLM-L6-v2`, ranks fit by **cosine similarity** and reads PDFs with PyMuPDF to produce an ATS score.

Technical Skills

Languages: Python, C++, C, JavaScript

AI / ML / NLP: LLM APIs, LangChain, RAG, FAISS, BM25 / Hybrid Search, Ollama, LangGraph, Agent-to-Agent (A2A), Model Context Protocol (MCP), Sentence Transformers, Scikit-learn, NLP, Cosine Similarity, PII Masking / LLM Guardrails, Pandas, NumPy, Matplotlib

Backend / APIs: REST APIs, Postman

Observability: Arize Phoenix, Azure Monitor

CS Fundamentals: Data Structures & Algorithms, OOP, Operating Systems

Web / Deployment: Streamlit, Streamlit Cloud, HTML, CSS

Tools / Cloud: Git, GitHub, VS Code, Microsoft Azure, Google Colab, PyMuPDF

Education

Data Structures & Algorithms,
B.Tech. in Computer Science and Engineering **2023 – Present**
Jaipur Engineering College and Research Centre (JECRC), Jaipur *CGPA: 7.58*

Senior Secondary, CBSE **2023**
Chinar Public School, Alwar

Secondary, CBSE **2020**
Chinar Public School, Alwar

Certifications & Achievements

- **Copado AI Certified** – Copado (Jul 2026)
- 8-Week Web Development Training with AI – Internshala (2024); Learning C++ – LinkedIn Learning (2024)
- **Certificate Portfolio [Google Drive]**

Leadership & Activities

- **Football Captain & State-level Athlete:** Captained school and college teams (runners-up at the RTU Inter-College Tournament, Nov 2023) and represented the state in football and swimming.
- **Student Council & Fest Team:** Core member of the Student Council and the college fest organizing team.
